Ziegler Rites Are Set Today

Funeral services for Richard Terry (Dick) Ziegler will be conducted at 4 o'clock this afternoon, Thursday, at the First Methodist Church.

A long-time resident of Canyon, Mr. Ziegler died Tuesday at Neblett Memorial Hospital after a heart attack. He was first stricken Monday while at work. He had lived in Canyon since moving here from Tulsa in 1929.

Mr. Ziegler was a line foreman with Southwestern Public Service Company in Canyon. He had earned a 25 year pin from

the company in 1963. He was a member of the First Methodist Church of Canyon and a veteran of World War II. He served with the United States Navy. He was the first commander of the Canyon Veterans of Foreign Wars Post in 1945.

A graduate of Canyon High School, Mr. Ziegler was a scoutmaster for Boy Scout Troop 108. He had also served as a baseball coach for the Little League for five years.

Born May 20, 1911 in Clarendon, Mr. Ziegler was 55 years old.

He married the former Juanita Barrett in Canyon August 31, 1939. The couple has one son, John Richard, who is a seventh grade student at Canyon Junior High School.

Services will be conducted by Rev. Hershel Thurston, pastor of the First Methodist Church of Canyon. (See ZIEGLER, Page 9)

Saturday Deadline For Sticker

Vehicle safety inspection stickers must be on vehicles by the Saturday deadline.

There will be no grace period for those without the stickers, said Randall County Justice of the Peace W.A. "Bill" Wilson.

By law, no vehicles can be examined during wet weather, Wilson noted.

Talent Show Set Friday

A "talent contest" sponsored by the Canyon Kiwanis Club will be held Friday night at 8 o'clock in the Canyon High School auditorium.

Trophies will be awarded to first and second place winners in each division. About 17 entries have auditioned for the contest, according to Jim Killingsworth.

Tickets for the show are selling at \$1 for adults and 75 cents for students. Tickets are available from members of the Canyon Kiwanis Club and the Canyon Jaycees. Proceeds from the show will go to Girlstown USA.

An added highlight of the talent show will be the appearance of the Girlstown singing quintet during the judging period. Master of ceremonies for the program will be Bob Finicum, disc jockey for KPUR radio in Amarillo.

Dr. Cornette Honored With Degree In Japan

BY TROY MARTIN

Nihon University of Tokyo conferred an honorary doctor of literature degree on Dr. James P. Cornette while the Cornettes were in Japan as guests of Prince Yoshihito Yozen, uncle of Emperor Hirohito.

Dr. and Mrs. Cornette returned Monday from two weeks in that Oriental country. Dr. Cornette is president of West Texas State University.

On their trip the Cornettes survived two earthquakes, a hotel fire and Tokyo traffic. The prince spent two weeks

as guest of the Cornettes here last May. Prince Yozen is an artist. The Cornettes became acquainted with the prince through Mrs. Harry Connick, wife of Major Harry Connick then of Amarillo Air Force Base. Mrs. Connick is Japanese and her family and the Prince's family are friends.

Prince Yozen was made an honorary professor of art by WT.

The prince invited Dr. and Mrs. Cornette to go to Japan as guests of himself and the Japanese people. Yozen sent

round trip plane tickets and took care of all the couple's expenses while they were in Japan.

As if this were not enough, the Japanese lavished gifts and attention upon the visiting educator.

"We had a marvelous stay in Japan," Dr. Cornette declared Tuesday. They flew to Japan by way of Hawaii and returned by way of Alaska.

The prince had expected the Cornettes to stay in Japan a month. "They don't think of time as we do," Dr. Cornette declared.

The doctorate was bestowed upon Dr. Cornette at an official banquet arranged by Prince Yozen. Nihon is the largest university in Japan with an enrollment of 100,000.

Flag Contract Sales Begin

Contracts are currently being renewed for the patriotic display of flags throughout the year.

Sponsored by the Canyon Jaycees, the flags will be displayed and taken down by the local civic club on eight patriotic holidays and at special events such as the Randall County Roundup and West Texas State University Homecoming.

Renewals sell at \$10 per year and new contracts will be taken at \$12 the first year, because of installation of the mounting brackets, according to Delbert Turk, Jaycee president.

Individuals may also participate in the service related Turk. Businesses will be contacted by Jaycees in the next few days for their renewals.

CLASPING their hands behind their heads, these students were among those transferred to safety in a practice tornado drill last Friday at Rex Reeves Elementary School. Students were in the safest accommodations available within about two minutes.

Tornado Drills Held By School

BY LORENA MILLER

Elementary school students at Rex Reeves Elementary School know what to do when they hear the school bells ring consecutively eight times--- and they are in the safest accommodations available within two minutes---with their hands

clapped across the back of their heads for additional protection.

According to Oscar Hinger, principal of Rex Reeves School, the first tornado drill practice held Friday was termed a success by four members of the volunteer fire department who watched the students being transferred from classrooms to places of safety which include restrooms, book storage closets, hallways and the cafeteria which is without windows.

"Our next drill will not be announced however," stated Hinger. "It may come on a Tuesday."

Consumers Survey Set

A consumer survey report questionnaire is being mailed to some 500 consumers in Randall County, Canyon Chamber of Commerce Manager Roland Black said.

The report, that will quiz the consumers on community services and facilities, transportation, store services and advertising, was instigated by the Chamber to aid merchants in determining buyer habits.

"What we wish to know is where you buy various types of goods," Black said.

Cancer Drive Is Set Today

The Randall County unit of the American Cancer Society will conduct the annual city canvas today, Thursday, between 5:30 and 7 p.m.

Tommy LaGrone, door-to-door chairman, said that about 150 sorority members from West Texas State University will work the drive under the general direction of the Panhellenic Organization.

Sorority workers will distribute information on cancer's warning signals and will leave each resident a questionnaire survey which is to be completed and returned by mail to the county unit of the ACS. Randall County's portion of the 1967 fund is \$2,500.00.

Approximately \$800 of the goal has been reached through the annual businessmen's drive which was held earlier this month. Directing the business drive were Joe Gidden and Jerry LaGrone.

First place winners in the various literary and academic contests will compete at the regional contests to be held at Odessa College in Odessa, April 21-22.

Muleshoe High School debate team for both the boys and girls divisions took first place honors for that event. The Canyon boys team of Todd Cone and Chris Kuykendall took second as did the girls team of Sheri Riley and Margaret Raef.

Rains Slosh Area, No Drouth Breaker

Moisture Expected To Aid Wheat Crop

Beneficial rains drenched Canyon and Randall County Tuesday filling gauges with from .40 to 1.83 inches of much-needed moisture.

Canyon officially received .70 inches, said Dr. M.B. Measamer, head of the West Texas State University geography department, who compiles weather here.

This brings the total amount received thus far in 1967 to 2.38 inches, he stated.

Canyon and the surrounding

area had already received some moisture during rains Friday.

The Randall County Sheriff's Office gauge showed one-half inch Friday; J. J. Leavitt, 18 miles southwest of the city, received .80 inches; and 1.50 inches of moisture was received in a gauge about 10 miles southeast of Canyon.

Last appreciable rainfall here before last Friday's showers was in September of last year.

"The drouth isn't broken," said Randall County Agent John Brazzil, "but there are hopes that the rains will continue as they are beneficial."

Brazzil said there would be some harvesting of dryland wheat, especially where the grain was sown late in the fall and in areas where livestock grazing was light.

The agent continued to point out that irrigated wheat would be aided by the moisture even though the crop had already been watered heavily. He said the county could probably expect an "average" irrigated wheat yield.

Included on the program will be the presentation of the Fighting Heart to an outstanding CHS football player; the outstanding award for boy's basketball; and awards for the outstanding forward and guard in girl's basketball.

TPHF Meet Is Sunday

Members of the Texas Panhandle Heritage Foundation, sponsor of "TEXAS", will gather Sunday on the West Texas State University campus for an annual meeting.

The meeting, slated for 4 p.m., will be conducted in the Ballroom of the Student Union Building.

Dr. Thomas Hohstadt, director of the Amarillo Symphony Orchestra, will speak on "Music In The Canyon".

The general membership of the Foundation will elect one-half of the 80-odd board members who will, in turn, select the Foundation officers for the year.

A Pike egg, he continued,

may hatch and the fish grow up to four pounds in one year and to 10 pounds in two years.

The warm-water fish thrive in water 75 to 80 degrees, Hansen stated.

The Pike will benefit sport fishing and will also aid in controlling rough fish.

A one-year-old, two-pound Pike will consume another fish of the same size, Hansen related.

Northern Pike were placed in the Lake in 1965, but apparently none survived, he said.

Baseball Tryouts For LL

Tryouts for Little League baseball for 10-12 year old boys will be held April 21-22 at the Little League Park.

All boys interested in the summer sport, who are not already assigned to a team, should be present for the tryouts which will begin at 6 p.m. on Friday, April 21, and at 2 p.m. on April 22.

Boys must participate in tryouts to be eligible for selection by the teams, according to Lee Roy Moreland. Regular week end games for the Majors will begin on May 5. The official season for Majors, Minors and Pee Wees will begin on May 29.

Marla Phillips, also of Gene Howe Elementary, placed first in the mathematics division. Shelly Brim, of Rex Reeves Elementary School, received a first place in the zoology division with an experiment on conditioning an earthworm.

Other Canyon awards in the elementary division went to Ronnie Cates of Gene Howe with an honorable mention in medicine and health; Burl Brim of Rex Reeves Elementary with a second in medicine and health; and Chris Moreland with third in zoology.

On the junior high level, Canyon Junior High School students brought home three awards including a third in zoology for Clifford Rucker; an honorable mention in earth and space science for Jamie Martin; and an honorable mention in botany for Keith Keeling.

DR. AND MRS. JAMES P. CORNETTE admire a likeness of a pagoda made with matched pearls. The ornament contains more than 4,000 pearls and was given to them by Prince Yoshihito Yozen during the Cornettes' recent visit to Japan. It was one of many presents.

By Troy Martin

Daylight saving time has everyone in a dither. DST goes into effect at 2 o'clock the morning of April 22. Among those trying to make

time decisions now are Canyon Public Schools and the Panhandle Heritage Foundation. Neither have anything worked out yet.

I hope that by this time next week I will have something definite.

If Panhandle Heritage Foundation sticks with the clock, there's going to be some mighty early curtains at it's "TEXAS" production in the Palo Duro Canyon Amphitheatre.

If the school system sticks with the clock some kids are going to have to start getting up a lot earlier in order to get to school on time.

"I'm concerned about the kids riding buses," said High School Principal Hobart McDonald. "Some of them already are having to get up early."

At least one businessman here in Canyon has declared that his firm will observe clock time rather than sun time.

Here's a whopper from George Dolan's Column, "This is West Texas," in The Fort Worth Star-Telegram.

George says Livestock editor Stanley Frank of San Angelo out-tall-taled that master of whoppers, Ace Reid, the cartoonist, during a weekend "they were losing together recently."

Frank told about a Texas cowman who was driving a buyer along a highway.

"I've got 15,000 head on this side of the road," the cowman

News Brief

A MOVE is being made to form a Canyon Men's Golf Association, according to Jack Ziegler.

Anyone wishing to join should contact Ziegler or Chuck Allen.

Eight Buffs To Go Pro

Eight of the 21 seniors on last year's 7-3 West Texas State football team have been signed to play pro football.

The figure is an all-time school high, and also represents a high among Texas universities and colleges.

One of the key reasons scouts give for the selection of eight West Texas players is that the Buffs' offense is tailored to develop an athlete for the pros.

"We favor a wide-open attack," says Head Coach Joe Kerbel. "We want to run the best possible play at the weakest part of the defense and we check signals at the line of scrimmage to accomplish this."

"Our primary purpose in choosing this type of attack is, of course, to produce a winning team. We do think, however, that our athletes enjoy playing the more wide-open type of game and we also feel the fans appreciate it more," concludes Kerbel.

Buffaloes who have signed pro contracts are quarterback Hank Washington (New York Giants), tight end Ted Wheeler (St. Louis Cardinals), tackles Bobby Duncan (St. Louis Cardinals), and Doug Kriewald (Chicago Bears), guard Marc Allen (Baltimore Colts), and line-backer Dave Gasser (Edmonton Eskimos) and Burl and Earl Wood (Vancouver Lions).

Golfers Win Tournament

Canyon City Club was host for a "Mr. - Mrs. Partnership Tournament" Sunday at the club with Jean Phillips as tournament director.

Winners were Chuck and V. A. Allen, first low gross; Clyde Miller and Sis Deeds, second low gross; Bill and Ernestine Harp, first low net; Jack and Leah Ziegler, second low net; Eddie and Betty Knowles, high gross; and James and Bobbie Gage, high net.

A special event for pee wee and junior boys and girls will be held Saturday at the Canyon City Club according to Gene Deeds.

Pee wees, 6-11, and junior, 12-18, boys and girls who are members of the club are urged to be present at the clubhouse at 10 a.m.

TOMMY BRANDT

Brandt Hurls No Hit Game

Lefty Tommy Brandt hurred a no-hitter at the Bovina Mustangs and received booming batting support as the Canyon Eagles romped to a 15-0 win for their fifth victory in a row at Bovina Thursday afternoon.

The Eagle batters produced three quick runs in the top of the first inning, giving Brandt a substantial lead before he ever arrived at the mound. Brandt proceeded to mow down six Mustangs on strike outs, giving up no runs or hits and only two walks.

Canyon picked up a home run in the top of the second on a cross-country smash by catcher Yogi Rossi with two on. Lon Conner followed suit with a two-run belt in the fourth. Frank Williams produced another extra-base blow on a fourth-inning double.

Bovina contributed almost as much to the high Eagle scoring as the Eagles did themselves. Mustang pitching handed out 11 walks while Bovina fielders were charged with 10 errors.

Canyon's biggest inning was the fourth, when the Eagles scored six runs. The Eagles tallied three runs in the first

second, and fifth innings.

Third baseman Don Howard knocked four hits in five trips to the plate, while Rossi went three for five. Jack Swartzell had a perfect two for two. Coach Wayne Turley was high in his evaluation of Brandt's performance. "He didn't let Bovina get a single ball out of the infield," Turley beamed.

Homemaking Skills Taught At Two Local School Levels

BY LORENA MILLER

"The home economics program of our schools involve a group of various units," said Mrs. Elizabeth Cummins, instructor at Canyon Junior High School, "but our most important job is to instill in the girls that making a happy home is an important facet of their life."

Home Economics programs in the Canyon Public Schools begin in the eighth grade with a semester which explores the different facets of the over-all four year program, according to Mrs. Cummins.

"In the eighth grade, for only one semester, we have units on food and the teenage diet, grooming and personal appearance, beginning clothing, child development and family life, and home management with the emphasis on the teenager's room," stated Mrs. Cummins.

"We start our first year students on relatively easy projects," commented Mrs. Cummins. "The first year they often make simple shifts or a cotton skirt, but this simplicity gives them the interest in the project and if it isn't too hard to catch onto they will usually continue on into the more difficult courses in the ninth grade and on throughout high school." "When the girls reach the ninth grade level we continue all of our basic courses of the eighth grade but the units studied are a little more advanced," related Mrs. Cummins.

"For instance in the clothing section we go on into selection of accessories, arrangement and planning of closet and drawer space, care of fabrics and our sewing class may include a pattern with sleeves or simple linings."

"In the home management unit, we go into selection and care of appliances, consumer buying and other phases of home care and in the home care unit we go into bed patient care and entertain pre-school children," said Mrs. Cummins.

"Girls nowadays do a fine job in the kitchen," said Mrs. Cummins. "It is a changeover for the teachers, since we have so many time-saving devices for

the modern kitchen."

"Young mothers in the present day must spend some thought on the proper management of their time and the new time-saving items in the kitchen are a big help to the average homemaker," said Mrs. Cummins.

"We try to teach that keeping a home is important and that to have a happy home should be the goal of every young girl. It is not necessary that a home measure up to all of the standards of 'spic and span'. The neatness of a home is important but it is not the only thing to strive for," said Mrs. Cummins.

On the junior high level about 40 girls take the eighth grade course each semester and about 60 girls are involved on the ninth grade level.

Mrs. Cummins, who is in charge of the junior high levels of homemaking, earned her bachelor's degree from Texas Tech and is presently working on her masters at West Texas State University. She has been with the department for two years.

Also teaching on the junior high level is Mrs. Nadine Lyles who holds a master's degree in counselling from West Texas State University, where she also earned the bachelor's degree. Mrs. Lyles teaches an eighth grade section of home economics at the school.

The home economics departments at both Canyon Junior High School and Canyon High School are designed on a "home basis" with units for the kitchen, a sewing room, a small livingroom, and adjacent dressing room. The high school department also opens onto the school patio. Classroom space is incorporated in both school plans where the students use kitchen tables as their study-desks.

Another opportunity for girls to practice homemaking abilities is offered in the two chapters of the Future Homemakers of America. Each school has an individual chapter and membership is limited to those students who have taken or are taking the home economics

courses being offered.

The FHA chapter affords a student an opportunity to gain recognition by earning the junior, chapter and state degrees.

General objectives of the FHA program are to help each girl recognize her own abilities and strive for full development. It also gives her a chance to actively participate in projects for the family, community and general world improvement, according to Mrs. Cummins.

The general curriculum of the home economics program in the two schools also includes a "summer credit plan" where the students work on supervised projects either in the home or in the classroom each summer for additional 1/2 credit per summer.

Mrs. Clara Long, who has been home economics instructor at Canyon High School for 14 years, earned a BA degree in social sciences from Mary Harding College and a BS and MS in the field of home economics at Texas Women's University.

Prior to coming to Canyon, Mrs. Long was a home demonstration agent in Hunt County for ten years and taught in the high school at Commerce.

Assisting Mrs. Long this year is a student teacher, Miss Carol Best, a home economics major from Texas Tech in Lubbock who is doing her student teaching.

"The high school course of study in Home Economics II and III includes units on housing, nutrition, clothing, child care, management of time and money, family life and other areas," according to Mrs. Long.

Two new courses have been offered in the high school home economics program this year. These new courses include interior design and a home and family life section which includes both boys and girls.

"In interior design we try to develop the students' creative abilities in the areas of design principles in making a home attractive," said Mrs. Long. "Among activities in the course this year have been anti-quing furniture, weaving chair seats, flower arrangements, making draperies and painting the clothing lab."

"In the home and family life section," said Mrs. Long, "we try to develop a maturing for the group by offering units in wise decision making, psychology, personality adjustment, careers, selection of a marriage partner, successful family life, understanding children, housing and money management."

"Some people think that homemaking is all cooking and sewing," said Mrs. Long, "but in today's homemaking program we have to realize that not every woman will be inclined to sew, and cook, but rather will be constructive in some other phase of homemaking also."

In addition to the regular homemaking courses for high school students, Mrs. Long also assists at various times with adult courses in the field.

Mrs. Long said that she finds "that the latest methods in every field promote simpler ways to do tasks thus providing time for other activities."

"These programs of the homemaking curriculum should develop students with more poise, confidence and the ability to make decisions wisely and have a happier outlook on life when they start their own homes," concluded Mrs. Long.

New DZ Officers

NEW OFFICERS for the Delta Zeta alumnae chapter were installed Monday evening by Mrs. William R. Wilson, left. The new officers include (l-r) Mrs. Jerry Puckett, president; Mrs. Don Standley, vice president; Mrs. Lee

Roy Moreland, corresponding secretary; Mrs. Gary Garner, recording secretary; and Mrs. Jim Greenwood, treasurer. Not pictured was Mrs. Joe Corbitt, pressbook and scrapbook chairman.

Mrs. Ruthart's recipes follow:

CHICKEN AND DUMPLINGS

4-5 lb. hen
1/2 stick margarine

Cover hen with water. Add salt and pepper and cook in a covered pan until chicken is tender. Remove chicken from broth and add margarine. Then add dumplings.

DUMPLINGS

1 cup hot milk
1/2 tsp. salt
1 tsp. baking powder

Blend together and add enough flour to make stiff dough. Roll thin and cut in strips. Drop into boiling broth. Do not stir with spoon, but shake the pan instead.

After all dough has been added lower heat and cook for 20-25 minutes.

TOASTED BUTTER PECAN CAKE

2 cups pecans, chopped
1 1/4 cup butter
3 cups flour
2 tsp. baking powder
1/2 tsp. salt
2 cups sugar
4 unbeat eggs
1 cup milk
2 tsp. vanilla

Toast pecans in 1/4 cup butter for 20-25 minutes in 350 degree oven. Set aside.

Sift flour, baking powder and salt. Cream 1 cup butter and gradually add sugar creaming well. Blend in eggs, beating after each addition. Add dry ingredients, alternately with milk. Add vanilla and 1 1/3 cup of the toasted pecans.

Bake in greased and floured pan at 350 degrees for 20-30 minutes. Will make three layers.

FROSTING

1/4 cup butter
1 lb. powdered sugar
1 tsp. vanilla
4-6 Tbsp. cream

2/3 cup pecans, toasted

ment of about 86,000 students. Dr. Cornette said he found language not as great a barrier as the difference in customs and attitudes compared to the western world.

Tokyo is the largest city in the world with a population of more than 10,000,000 people, Dr. Cornette pointed out.

He noted that Japanese excell in manufacture of such things as television, transistor radios and cameras. He described the people as being fairly well off. He said 86 percent of the households have at least one television set.

Prince Yozen literally "knocked himself out" to see that the Cornettes had a good time. He even arranged a welcoming party at the airport. Dr. Cornette described the hotel accommodations as fabulous.

There was an entire cherry tree in bloom in the lobby of the Tokyo hotel in which the Cornettes stayed. They arrived in Japan just right for the cherry blossom festival.

The people in Japan have accepted English as the world language and most of them speak enough English to get by.

The Cornettes found the Japanese an ambitious, busy people and he said they are making great strides in progress. New sky scrapers are going up in the country's large cities. People themselves lead an urban life, for the most part, and are very energetic and ambitious.

"They think we've achieved a good life and they want to do the same thing," the university president declared.

He said that wherever he went in Japan he found young people wanting to come to the US to go to school.

Dr. Cornette was impressed with Japanese attitude. He noticed a large boulder on the grounds at Otani Hotel in Tokyo. The gold in the rock is valued at \$200,000,000 but the Japanese prefer to keep the huge stone as an ornament rather than to extract the gold. The Otani Hotel was constructed to accommodate participants in the Olympics.

The Cornettes visited the Yozen estate at the foot of famed Mount Fujiyama.

They traveled on the 160 mile and hour train from Tokyo to Kyoto and spent two days sightseeing. While at the Kyoto International Hotel they had a brush with a hotel fire.

They were just packing to leave the hotel when Dr. Cornette opened the door to their room and smoke billowed in. They were on the eighth floor of the hotel. The fire was believed to have been started when someone tossed a lighted cigarette into a waste chute.

Mrs. Cornette lost her coat as the couple left in a hurry. The hotel management insisted upon paying for it. Fifteen people were injured in the fire.

in Japan while the Cornettes were there but they did not feel it. In Denver Monday on the return trip they felt a tremor which shook the area.

Dr. and Mrs. Cornette were amazed at the attention paid them and the length to which their host went to see after their comfort and enjoyment. Some member of the prince's family was with the couple all the time and an interpreter was provided for them on all their excursions.

Dr. Cornette described the traffic in Tokyo as a "nightmare." He said the Japanese are busy now building elevated expressways and eventually will be able to handle their traffic problems.

He praised the people of Japan for having serenity in spite of burning ambition.

The hospitable Japanese did not send their guests home empty-handed. Several paintings, a likeness of a pagoda done in matched pearls and several other gifts were showered on the homeward bound couple.

The pagoda is an object of great beauty and value, having been made with more than 4,000 matched pearls.

Following the early morning "coffee-donut" session and a noon luncheon at the Post Home, the VFW general business session will be conducted in a closed meeting at the Post Home at 1:30 p.m. with district commander, C. W. Smith, presiding. Smith is from Hereford.

The general business session for auxiliary members will also be conducted at 1:30 p.m. at the American Legion Hall in Canyon.

Mrs. Surratt, state president of the department of the Texas Ladies Auxiliary to the VFW, will make an official appearance at the auxiliary session.

She will discuss the programs carried out by the Legion Auxiliary and will explain her special project for the year, "Americanism". She will offer two citizenship awards to local auxiliaries with the best Americanism programs reported during the year.

Brazil noted the problems in preparing ground for summer crops might be solved. Much of the land being prepared has been very dry and rough, he stated.

"We're looking better than we have in a number of months," he concluded.

Charles Conatser, nine miles east of Canyon, received .70 inches Tuesday; Maria Fortin, 17 miles northwest of the city recorded .75 inches; Harold Erwin, 17 miles northeast received .43 inches; and Emil Olson, six miles northwest of Canyon recorded one-half inch.

The Southwestern Great Plains Field Station, on Randall County's northwest line, recorded a whopping 1.83 inches during the Tuesday rain.

"We have to test the students to keep them aware that emergencies do arise and therefore they will remain calm in such a situation."

"Students may be picked up by parents in the event of an emergency," said Hinger explaining the importance of notifying the teacher that the child has been taken from the school area.

"However, if they all come during an emergency this could be the biggest catastrophe of all," cautioned Hinger.

Students are removed from classrooms, which are surrounded with glass windows, and transferred to the safest places available, according to Hinger.

At Canyon High School, students may be removed from their classrooms and placed in a cement tunnel re-inforced with steel in about 2 1/2 minutes.

The tunnel is about the "safest place in town" according to Hobart McDonald, principal at CHS. The tunnel runs from the west side of the school cafeteria underground between the two school buildings and has a small entry in the school patio.

"We normally use the wide entrance behind the cafeteria however," said McDonald.

A group from the Texas Highway Department Thursday of last week discussed Randall County Farm to Market Roads at a called meeting of commissioner's Court.

In the group were Chili Smith, Richard Crandall and Vernon York.

Smith, Highway Department district engineer, told commissioners that four or five miles of new Farm to Market Road could be constructed next year.

He indicated that the Highway Department could take over maintenance of a "reasonable" amount of paved county roads. Commissioners may be faced with a choice of paving more county roads or having maintenance of present paved roads assumed by the state.

Commissioners voted to withhold a decision on asking the state to assume maintenance of any more paved county roads.

Judge Lloyd King reported to the court on his recent trip to Washington, D. C., where he attended a National Conference of Councils of Government.

Varsity-Alumni Game On Tap Here Tonight

BY JON LOW

One of West Texas State University's most explosive Varsity-Alumni spring exhibition football games in recent years will be on tap Thursday night at 7:30 in Buffalo Bowl.

"We predict a titanic struggle," said Head Coach Joe Kerbel of the clash that will feature the acrobatic antics of the varsity's split end Dave Szymakowski, an all-American candidate, and the brutal line play of the alumni's 6-7, 300-pound tackle George Allen of the Houston Oilers.

Such stars as the New York Giants' Hank Washington, who broke all West Texas passing records in just two seasons, Ronnie Mankin, Tom Moody, and James Cowell will head the alumni backfield.

The line will boast such stalwarts as tight end Ted Wheeler of the St. Louis Cardinals, tackle Doug Kriewald of the Chicago Bears, center Phil Hampton and guard Percy Green, all standouts on last year's 7-3 team.

Defensively the alumni will be led by the torpedo-like tackles of linebackers Dave Gasser of the Edmonton Eskimos and the Vancouver Lions' Burl Wood. Other standouts will be 6-4, 245-pound Baltimore Colt defensive guard Marc Allen, who

Three of Canyon's four Kids Incorporated track teams won meet championships Saturday in Amarillo.

The Canyon Junior Girls won their second meet in a row by rolling up 67 points, topping runner-up Amarillo Bowie's 53 points. The Canyon team is coached by Bill Harle and Allen Heydman.

Both Canyon Pee Wee boys teams took top honors in their meets. The Gray team scored 80 of a possible 90 points, while the Blue team tallied 76. The Gray 440-yard medley relay team set a new Kids Inc. record with a 1:05.9 timing to break the 1:06.0 standard set by Southlawn in 1966. Both teams are coached by Jon Low.

Canyon's Midget boys took third place honors in their meet with 52 points, only two points out of second place. They are coached by Frank Belcher.

First places:

JUNIOR GIRLS: 440 Shuttle Relay (Kathy Knighton, Jan Westfall, Jaycene Bellah, Mary Miller, Lynette Slack, Kim Tucker, Sheila Payne, Jeanett Thomas); 880 Medley Relay (Tucker, Payne, Thomas, Slack); 440 Medley Relay (Miller, Payne, Thomas, Tucker).

started for the Buffs for the past two seasons, and defensive terror Butch Walterschied.

More former Buff greats will be defensive backfield stars Tom Krempasky, Steve Oakley, Jim Young, and Ricky Nix, as well as linemen Wilton Manley, Bill Uzzolino, and Bruce Kimery.

Expected to draw the varsity's starting quarterback shot is Paul Waite, a 6-3, 215-pound junior transfer from Taft Junior College of California. He'll be calling on a deep corps of outstanding ball carriers and some of the most exciting receivers in the school's history.

Leading targets for Waite and back-up man Roy Winters will be Szymakowski, flanker Charles Henderson, and tight end Dan Andrews.

Sophomore-to-be Duane Thomas, a 215-pound fullback, and Eugene Morris, the team's leading ground gainer and scorer last fall, head up the varsity backfield. Also figured to rip off large chunks of yardage will be Curley Watters, the nation's 11th ranked punt returner in 1966, bulldozing fullback Eugene Harper, and breakaway threats Jimmy Leonard and 9.6 speedster Aaron Banks.

The varsity owns, in all likelihood, the largest line ever assembled at West Texas State. Eight Buffs tip the scales at over 240 pounds, with 260-pound Larry Brazon the heaviest. Six Buffs stand at 6-4 or over, while 21 stand at least 6-3. The tallest Buff is 6-6 Larry Eschenburg, who comes well packed at 250 pounds.

In the varsity's final tuneup for the alumni, the Red team blasted the White team 90-0 before 600 fans at Harvester Stadium in Pampa on Saturday night.

Blue team--440 Shuttle Relay (Randy Woods, Chris Doss, James Heronemus, Ricky Lyles, Wayne Pitt, Greg Tucker, Kenty Zevely, Bill Moore); 880 Medley Relay (Pitt, Doss, Moore, Zevely); 880 Relay (Denny Bryan, Mark Guill, Pitt, Tucker); 440 Medley Relay (Moore, Zevely, Doss, Bryan).

MIDGET BOYS: 440 Shuttle Relay (Kelly Forehand, Stan Prichard, Bob Stevens, Doug Tow, Bobby Edwards, Joe Mike Carter, Michael Word, Dale Tucker); 440 Medley Relay (Forehand, Tow, Edwards, Bobby Ratliff).

Heroes are human. King Arthur of Lerner and Loewe's "Camelot" can be wise enough to lead a Round Table dedicated to good deeds and still secretly wonder "How To Handle A Woman."

This human approach to the legend of the Round Table marks the musical, "Camelot," which will be presented April 19-22 and 25-29 in the Branding Iron Theatre at West Texas State University.

Gare Brundidge of Livermore, Calif. takes the role of Arthur. As a young bride, Guenevere, played by Joe Ella Cansler of Hereford, happily abandons "The Simple Joys of Maidenhood."

She is in love with her husband and his home, Camelot, where weather is set by royal decree. Only a few years

'Camelot' Slated As BIT Production

later, however, she fearfully admits her growing love for Lancelot as she sings "Before I Gaze At You Again."

And that extraordinarily perfect man, Lancelot, played by Terry Milligan of Tulia, can no longer be pompously smug about his virtue. After running away from his love for Guenevere, he cannot stay and returns to her to sing the haunting love ballad, "If Ever I Would Leave You."

Bored with good deeds, the knights of the Round Table are drawn to the evil Mordred, played by Steve Hunter of Amarillo, as he glorifies the love of battle.

Seeing his dream of love and chivalry destroyed by human weaknesses, a disillusioned but compassionate Arthur, still loving Guenevere, Lancelot, and Camelot sings poignantly to a young boy:

"Don't let it be forgot That once there was a spot For one brief, shining moment That was known as Camelot."

This lyric is familiar to many Americans as the one the late President John F. Kennedy loved. Jacqueline's story of her husband's playing the record repeatedly was widely told following the assassination.

The story of the musical, "Camelot," is based on T.H. White's book, "The Once and Future King." As a Broadway hit of the early 1960's the musical starred Richard Burton as King Arthur, Julie Andrews as Guenevere, Robert Goulet as Lancelot, and Roddy McDowall as Mordred. A movie is scheduled for release this year.

This directing team has produced sell-out musicals at WTSU for the past several years. Theater-goers will remember last year's "Carousel." Musicals of past years also include "Kismet," "My Fair Lady," "The King and I," and "Showboat."

Certain time for all performances is 8:15 p.m. Tickets are \$3 for adults and \$2 for public school students. All seats are reserved.

The box office in the Fine Arts Building will be open through Saturday from 11 a.m.-5 p.m. to sell tickets and take telephone reservations. On performance days the box office will be open until curtain time. Phone number is OL-5-7141, extension 2224.

Orientation For Freshmen Scheduled

Orientation day for freshmen students of Canyon High School will be conducted Wednesday, April 19, with an all-day session in the auditorium at CHS.

Activities will include speeches and discussions by various school officials and instructors, according to James E. Perkins, assistant principal.

"This is an opportunity for beginning high school students to learn a little more about the courses offered in our schools. They are also informed of the graduation requirements," stated Perkins.

The orientation will deal primarily with courses which are elective for students and will include points to be gained by taking the courses and some of the prerequisites for elective courses.

"We do not feel a need to incorporate the required subjects into the orientation program," Perkins related.

Opening the orientation will be Hobart McDonald, high school principal, with an address from 8:35 a.m. until 9:05. Perkins, assistant principal,

H. Haiduk Gets Grant

Harry Haiduk, instructor in business at West Texas State University, has been awarded a \$6,000 fellowship grant for doctoral studies in insurance and finance at the Wharton School of Finance at the University of Pennsylvania.

He expects to begin his studies in September on the grant from the S.S. Huebner

Foundation for Insurance Education, which is renewable for three years. The Huebner Foundation usually awards about six such grants annually, according to Dr. Zeke Marchant, head of the WTSU department of business administration.

Haiduk joined the WTSU faculty last fall, after earning his B.B.A. and M.B.A. degrees. He is a graduate of Pampa High School. Candidates for the Huebner grants had to score in the top ten per cent in the nation to be considered, Dr. Marchant said.

He was a life underwriter for the Mercantile Security Life Insurance Company in Dallas and an industrial engineer for Cabot Corporation in Pampa before joining the WTSU faculty.

He held a fellowship last summer from the Life Insurance Agency Management Association for study in Minneapolis with the Northwestern National Life Insurance Company.

King Studies COG At Capitol Meet

Merging of government functions was the principal topic discussed at a council on local governments attended last week by County Judge Lloyd King.

The meeting was held in Washington, D.C. The meeting was financed by Ford Foundation and was attended by some 500 people from all parts of the United States.

Judge King said he learned that there are 50 areas in the United States in which powers of various subdivisions of government are vested in one governmental body known as Councils of Government, often referred to as COGs.

For example, he said, city government and county government might be vested in a single authority. The county sheriff might command all of an area's constabulary forces and derive his authority from a Council of Government ruling his area.

The same Council of Government might operate the area's schools, highway maintenance and all other functions of local government.

Proponents of Council of Government say it would be much more efficient and cheaper to operate than the present system under which a half dozen subdivisions of government function in the same area.

Judge King said COGs have been adopted in many metropolitan centers because there are so many problems common to an entire area. The COGs are delegated authorities by governmental subdivisions to solve those problems.

News Brief

REVIVAL PREPARATION prayer meetings will be conducted next week at the First Baptist Church at 7:30 o'clock each evening Monday through Friday. The church will hold revival services April 23-30.

the voters for the other type. There was some opposition to COGs by "the folks at home," King said, so it has been proposed that elected officials sit on the COG board.

"If the people don't like it (COG), they can vote the officials out of office," Judge King said.

King noted that there are 11 COGs operating in Texas.

"We would need experts to see what our needs are," he declared, "and experts would be needed to run a COG."

"This might remove direct control of the government from the hands of the voter," the judge said.

Miss Curry Selected As Queen

Sharon Curry was named 1967 queen of the Happy Lions Club at the annual queen contest which was held in the Happy High School auditorium recently.

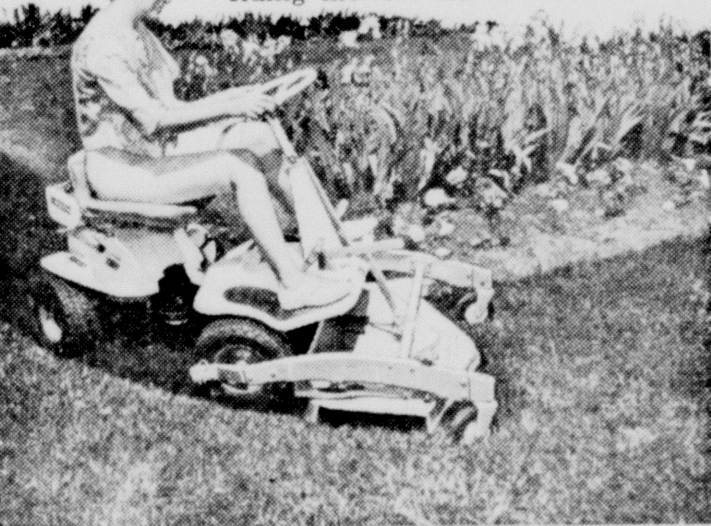

Miss Curry is the 17 year old daughter of Mr. and Mrs. Clyde Curry of Happy. She will represent the Happy Lions in the District Convention Queen's contest to be held in Dumas April 21-23.

BOLENS LAWN KEEPER

No other riding mower can follow in its tracks . . . Here's why:

This riding mower with its 32" rotary mower attachment features Center-Pivot Steering . . . gives you a tiny 16" turning radius. Up-front seating and front-mounted mower provide fast, clear-view, one-pass mowing. No backtracking. No hand-trimming necessary. The Bolens Lawn Keeper gets in tight around hedges, cuts square corners, circles shrubs and trees. Moves in on jobs where other riding mowers fear to tread.
